

AnthraSync Security & Compliance Guidelines

Corporate Compliance, Data Security, and Employee Protocols

Section 1: Data Protection & Password Policy

Section 1.1: Authentication. All corporate account passwords must be at least 12 characters long and contain a mix of uppercase letters, lowercase letters, numbers, and special characters. Passwords must be rotated every 90 days. Multi-Factor Authentication (MFA) is mandatory for all access points.

Section 2: Data Retention & Disposal

Section 2.1: Retention Period. Customer personal data is retained for a maximum of 3 years after account termination. Compliance logs are archived for 7 years to meet regulatory requirements.
